

Health and Safety Management Commitment Statement

Our Aim

Design and Analysis will achieve successful delivery of all projects through ensuring excellence in safety, sustainability, environmental awareness and quality management. This will be to the benefit of our clients' people, our personnel and all who are influenced by our input.

Management Commitments

To achieve our health, safety and environmental aims, we commit to:

- Comply with all Health and Safety legal requirements applicable to the Projects
- Comply with the project's Client Safety requirements.
- Encourage, respect and listen to all ideas and empower all personnel to speak up about Health and Safety.
- Provide the right equipment and support to carry out the work.
- To be visible in the field to review work processes and promote our Safety Commitment
- Provide a supportive safety culture by embracing behaviours that contribute to safe workplace.
- Lead by example.
- Never compromise my safety or the safety of others.
- Be empowered to stop unsafe work.
- Present myself fit for work
- Report every incident and communicate the findings to grow the teams knowledge and understanding.
- Put Health and Safety first and ahead of production.
